## Spaniards Submit to the American Proposal as to Cuba.

### Final Agreement Reached by the Commission at Paris--Now the Philippine Question Comes Up.

WASHINGTON, Oct. 27.—Intimation conveyed by the American commissioners to the Spanish commissioners at Monday's session of the Peace Commission, in parts, that the position of the United States in respect to Cuba and the Cuban debt could not be regarded as subject to change as shown by today's Paris advices, had a decided effect. The only concession as to Cuba our commissioners will make will be to guarantee the security of life and property there until a stable government has been established and no longer. Undue significance has been attached to the dispatch of a special messenger from Washington yesterday to the President at Philadelphia. Secretary Day reported that he had received from the American peace commission yesterday a very long cable message.

It is expected that the commissioners will now take up the Philippine question. In view of the fact that if we take those islands, which seems to be the logical outcome of the situation, we shall acquire valuable possessions, it is believed that our commissioners will consent to assume such part of the Philippine debt as can be shown to have been contracted for the benefit of those islands.

## THE AGREEMENT.

PARIS, Oct. 27.—The Spanish commissioners have finally agreed that the Cuban article of the protocol shall, without conditions, have a place in the ultimate treaty of peace. It was not until Monday that they became convinced that the Americans meant exactly what they said. The final conviction of their inability to win their point brought to the Spaniards such a shock that there were grave doubts as to the continuance of the negotiations. In support of these statements is the fact that Montano Rios after Monday's session would have resigned the Presidency of the Spanish commission had he not believed that by so doing he might grievously shake, if not unsettle the Sagasta government. So at yesterday's session of the Spanish announced that they would forego future argument on the Cuban debt, and agreed that practically in terms and absolutely in the spirit of the protocol articles about Cuba should go forward into the final treaty, thus agreeing to relinquish sovereignty over and claim to Cuba without either terms or conditions.

All the differences, if any existed, regarding Porto Rico and the selection of the Island Guam were also arranged and the commissioners found themselves well nigh touching the Philippines question which will be taken up next week.

The session of the joint commissions which began at 2 today ended at 4.

## AFTERNOON RECEPTION.

Social Event of Carnival Week is Given by Mrs. H. E. Hamsher.

A delightful afternoon was given to the friends of Mrs. Harry E. Hamsher in the reception which was given by her at her residence in Milliken Place between the hours of 3 and 4 and 4 and 6 o'clock. More than 200 invitations were issued.

The guests were met at the door by Lucille Hamsher and Mary Hostetter. The little girls were charming in dainty frocks of pink and white. Mrs. Hamsher and her guest, Mrs. Charles Edward Chamblin of Mason City, stood just inside the parlor door to receive the guests. Others assisting in receiving throughout the house were Mrs. Henry Waggoner, mother of Mrs. Hamsher, Mrs. B. K. Hamsher, Mrs. Harlan Maris, Mrs. Lawrence Cook, Mrs. F. D. Caldwell, Miss Whitley, Mrs. W. B. Hostetter and Mrs. Henry Elwood.

In the dining room, ice, cake, bonbons and salted nuts were dispensed by Misses Jane Roby, Grace Hamsher, Bonnie Bartholomew and Lida Montgomery. Miss Desdemona Hamsher presented the guests with favors of white carnations as they passed from the dining room. Miss Madge Hays dispensed frappe in the library upstairs.

The decorative scheme throughout the house was of green and white, the idea being beautifully carried out by the liberal use of asparagus fern, white carnations and marguerites. In the parlors the mantles, doorways, screens, windows and pictures were framed with the delicate fairy branches of the asparagus fern in which was interwoven the marguerites. Palms and other tropical plants were arranged about the rooms and on piano and mantles were placed great bowls of white roses and ferns.

The dining table was decorated with large bunches of fern placed at each corner. The center piece was a large oval glass vase of white roses and ferns resting on a cut glass mirror which was surrounded with smilax. The sideboard was banked high with the asparagus fern and marguerites. Mrs. Hamsher wore light green organdy over green silk and carried American beauty roses. Mrs. Chamblin was dressed in her wedding gown of white silk embroidered grenadine, made over white dress satin and trimmed with liberty silk and pearls.

During the afternoon an informal program was offered. There was a vocal solo by Miss Anna Roberts, piano solos by Mrs. W. E. Bellman, Miss Junita Clark and Miss Grace Hamsher, a piano duet by Misses Emily and Grace Hamsher and a vocal solo by Mrs. Robert Mueller.

## IT IS A GOOD THING.

Electric Cancellling Machine for the Decatur Postoffice.

Perry S. Heath, first assistant postmaster general, has notified Postmaster Callahan that the department had decided to furnish a cancelling machine for use in the Decatur postoffice. This is an necessary which Mr. Callahan has been trying to secure for several months in order to expedite the work at the office and he is very much gratified to receive the good news from Mr. Heath. There are about 9000 letter stamps cancelled at the Decatur office every day. With the machine the stamps on the envelopes can be speedily cancelled and letters more quickly delivered and sent out. The machine will come from Boston and will be operated by electricity.

## G. W. WARD WON.

The Corn Husking Contest Held This Afternoon—Prize a Set of Scales.

A corn husking contest was held this afternoon at 1 o'clock at stage No. 6 at the corner of North and Main streets. There were two contestants, R. Hinton of Elwin and G. W. Ward of Knights Station. The conditions were that each man furnish his own corn and the one that husked the most corn in a given time was to receive a prize of \$10 scales, presented by D. F. Radford & Company. The husking lasted six minutes and Mr. Ward won the prize. He husked 116 pounds of corn against Hinton's 121 pounds. The huskers were really quite evenly matched but the corn husked by Ward was not as dry as that husked by Hinton and consequently weighed more.

## PICKED HER POCKET.

Mrs. Mary Parker, of Macon, was Touched for \$8.

Mrs. Mary Parker, an elderly lady of Macon, had her pocket picked today. She came to the city in company with a number of other ladies and while in the crowd going from the train to the street car a thief reached in her pocket and took her purse which contained \$8 in money and return trip ticket to Macon. The matter was reported to the police.

## AN UNUSED TYPE.

Golden-Gray Eyes Have Been Neglected by Modern Novelists and Poets.

I might pile Ossa upon Pelion in the way of descriptions of gray eyes culled from fiction. There is, however, one type of gray eyes whose appearance in story I have not yet noted, says Nina R. Allen in Lippincott's. We have had gray eyes which "resembled nothing so much as moss agates;" sea-gray eyes are not uncommon. Annelie Rives has bestowed upon Ilya, in "The Witness of the Sun," great violet-gray eyes, "like rain-washed amethysts;" while Mr. Paul Leicester Ford has recently introduced us to a pair of slate-colored eyes.

But, at the present writing, I have yet to meet with the golden-gray eyes in fiction. They are to be found, however, in nature, the most luminous of all eyes, I think, the iris about the edge a soft old-gold or golden brown gradually melting toward the pupil into a warm gray. This lovely color I have seen in the eyes of a dog and of a child—the eyes of the dog wistful, appealing, pathetic with unutterable things, the child's speaking of a soul as yet undarkened by shades of the prison house, and splendid with the light that never was on sea or land.

To the novelist desiring something new in eyes, I would respectfully recommend the golden-gray.

## A Pitcher Is Not a Bottle.

Native wine is so cheap in San Francisco that many restaurant-keepers serve it with meals in lieu of tea or coffee, if their patrons prefer it. The elapse in the war tax requiring a stamp to be affixed to each bottle of wine disturbed them seriously for awhile, until the plan was hit upon of serving it in pitchers instead. As the internal revenue department has ruled that a pitcher is not a bottle, these eaters got off free of the tax.

## A BIG SHOW

### The Famous Corn Husking Match a Tie in the Park.

Mayor Taylor, Jerry Nicholson and Bart Tyler Tie the Mark--Lots of Fun--Match to be Repeated To-Morrow.

The long looked for corn husking match between Mayor B. Z. Taylor, Sheriff J. P. Nicholson and B. S. Tyler took place this afternoon at 3 o'clock on the stage in Central park. The contest was witnessed by 10,000 persons who gathered around the platform. The result was a tie. The Mayor was tied up in a big shock by T. M. Taylor, a brother of the mayor. The Arthur hand occupied seats on the stage and played while the people anxiously awaited the coming of the shuckers. The crowd began to gather early in the afternoon.

B. C. Montgomery, who was on the platform, made an announcement to the people. He said that the contestants were about to arrive. The match to be pulled off was looked upon to be a small matter, but it was very important. If the palm of victory was taken away from the mayor the court house would be moved to Long Creek township.

Mayor Taylor was the first to appear. He was on the top of a big load of corn. He was attired in a bright red shirt, wore white overalls with braided straw hat. Frank Darwin, Walsh dispatcher, drove the team of mules hitched to the wagon. On the side was a sign, "These mules are tired hauling corn shucked by Mayor Taylor."

The next to appear was Bart Tyler. He was himself driving a big load of corn and on the side was a big sign, "Tyler's first load since dinner, 80 bushels."

## IN CHRISTIAN.

Hon. I. R. Mills Has a Big Meeting at Taylorville.

TAYLORVILLE, ILL., October 27.—Hon. I. R. Mills of Decatur, the Republican candidate for congress in the 17th district, addressed an enthusiastic meeting here yesterday afternoon and created a favorable impression by his direct talk. The speaker was introduced by Hon. W. M. Province, who presided over the meeting which was held in the armory.

In his speech Mr. Mills declared that the Republican party had always taken the right side of all political questions

and was right now. He said that a statesman could represent a party with a politician might as well to represent two parties. In concluding Mr. Mills declared that all promises made by the Republican party had been fulfilled.

The judge was John Miller, W. L. Downing and John Bonshaw. The boxes about a foot wide and two long were placed on a table and the conditions were that the first man to fill his box would be the winner. The ringing of a big cow bell announced the start of the contest. The people kept up a continued cheer from time the husking began until it ended. All three worked for an hour.

The ears of corn were changed to one box to another by the ever present and when the contest was over the boxes were decided to be evenly filled and the judges announced that the time had been two minutes and a half and that it was a tie. The huskers would adjourn until tomorrow. The people cheered the mayor repeatedly and he announced that tomorrow he would finish a man in Macon county. Sheriff Nicholson, whose hand was bleeding, would husk anybody, and the crowd wound the thing up with a "Time." The event furnished much fun for the people, than anything that has ever occurred in the city.

and was right now. He said that a statesman could represent a party with a politician might as well to represent two parties. In concluding Mr. Mills declared that all promises made by the Republican party had been fulfilled.

It May Save Your Life. A dose or two of Foley's Honey and Tar will prevent an attack of pneumonia, grip or severe cold if taken in the early stages, colds, La Grippe, hoarseness, difficult breathing, whooping cough, incipient consumption, asthma or bronchitis. Gives positive relief in advanced stages of consumption, asthma or bronchitis. Guaranteed H. W. Bell, N. L. Krone, W. H. Hubbard.

## PARIS EXCITED.

A Political Carnival Mix-Up Every Day in That City.

PARIS, October 27.—Premier Bismarck's proclamation in the chamber of deputies of the superiority of the civil over the military power is thought likely to bring on the coup d'état projected by a conspiracy of generals, the discovery of which was made last week. The new ministry is almost certain to be progressive republican with Barthou as premier and Delombre in the cabinet. The fall of the radical ministry is taken by popular journals not only as a victory over the Dreyfusards, but a triumphant reply to the supposed foreign hostility caused by the Dreyfus affair, Fushoda and the recent war. Patrio says: "France is erect, watchful and implacable against those who tried to outrage her genius, hope and honor."

The English colony is particularly alarmed and several families are on the point of departure.

The tumult has subsided in Paris. Troops are less in evidence, but the crisis is none the less acute. The boulevard are thronged with excited politicians, who are carefully watched by the police.

Great apprehension is felt as to events when the Dreyfus revision begins with the reading of the board's report, which, it is expected, will take the whole day.

## FUNERAL OF L. B. CASNER

Held Wednesday Afternoon at the Home of John Casner.

The funeral of the late L. B. Casner was held Wednesday afternoon at 1 o'clock from the residence of John Casner, son of the deceased, in Long Creek township. The services were conducted by Rev. L. Field, who preached from the text John xvi. 22: "When a few years are come then I shall go the way from whence I shall not return." The minister touched upon the resignation with which Mr. Casner met trouble and gave a short biographical sketch of his life. Rev. Field said that about 20 years ago Mr. Casner became interested in church work and assisted in the organization of the United Brethren church at Casner. Four children of the deceased survive. They are Mrs. James Wikoff of Long Creek township, John Casner of Casner, Mrs. A. B. Chapman of Casner and Mrs. John A. Dawson of Chicago. The burial took place at the Long Creek cemetery.

## ALL GOSSIP.

PHILADELPHIA, Oct. 22.—Secretary Porter stated this morning that the President will leave for Washington tonight and that there will be a meeting of the cabinet tomorrow morning. Mr. Porter declined to say anything about last night's meeting of the cabinet in this city, but it was authoritatively stated that the session was informal and that no mention was made of any communication from Paris.

## LONDON CABINET MEETING.

LONDON, Oct. 27.—At the Cabinet council, held at the foreign office today, all members of the cabinet were present. The meeting lasted two hours. When the ministers left the foreign office they did not give any indication of serious apprehensions for the future.

The French Ambassador saw Premier Salisbury immediately at the conclusion of the cabinet meeting.

## GO HOME

The Grand Jurymen Were Discharged To-Day.

## CLEVENGER WAS INDICTED

For the Murder of Clarence Telford on July 31—Twenty-Two True Bills Returned Today.

The grand jury of the October term of the circuit court was discharged at noon today. Among the indictments returned today was one against Louis A. Clevenger, charging him with the murder of Clarence Telford on July 31 last. Clevenger is now in the county jail and has not yet been fully decided whether his case will come up this term or the next.

### REPORT ON JAIL.

The grand jury reported to Judge Vail that a visit has been made to the county jail and that everything was in good condition and there were no complaints from the prisoners. It was recommended that as far as possible the youthful and minor offenders be separated from the older and more vicious prisoners. Judge Vail instructed the clerk to send a copy of the report to the clerk of the county court.

The grand jury asked that in the case of Timothy Lyons, aged 13 years, who was confined in the county jail on a charge of petit larceny, clemency be granted. Judge Vail said that matter would be given due consideration.

### INDICTMENTS.

The grand jury today returned 22 true bills and six not true bills. In all they have returned 35 indictments. The term has been about an average one in length of time. They have been in session 22 days and will receive as their pay from the county \$44. Judge Vail discharged the grand jurymen with the thanks of the court. An adjournment was then taken until tomorrow morning when motions in cases will be heard. No jury cases will be tried until after the close of the term.

The entries on the court dockets today were as follows:

### CHANCERY.

Ada P. Bartholomew et al. vs. Orlando Powers; bill for accounting. Demurrer to amended bill by Harry L. Oldham, and Harry L. Oldham, administrator. Demurrer sustained.

N. J. Case vs. Samuel M. Case; divorce. Cause heard. Decree.

## DOCTOR "POSTUM."

Some Coffee Experience in Mexico.

"Some years ago I went to a city of Mexico, where I incurred my coffee allowance quite considerably.

"In about three months my nerves became seriously affected. A sort of stupor seemed to possess me all day and I suffered great discomfort from dyspepsia. I kept on, however, with the black coffee until just before I left, when I could not keep it down any

W. A. DESBOROUGH, Capt. Battery A, Light Artillery, Sacramento, Cal.

"When I reached New York City, a lady friend who used Postum Cereal Food Coffee regularly, recommended it. I gladly tried some of her coffee and found it all the owners claimed for it, a very delicious beverage the way she makes it.

"I have been entirely cured and am in perfect health in every way. Am a regular missionary for Postum.

"Whenever I hear a man or woman complain of any pain or disorder that arises from the nervous system, I prescribe Postum. Several of my business friends dub me 'Doctor Postum,' because I have cured them of their indigestion and dyspepsia."

## MUNGER ART GEMS.

Art Institute of Chicago Falls Heir to \$300,000 Worth of Paintings.

Rare Pictures Thus Added to an Already Valuable Collection—List of the Most Notable Works.

By the terms of the will of the late Albert A. Munger, which was opened and read at Chicago the other day, the coffers of four worthy charities have been enriched and the Art Institute of Chicago comes into ownership of the finest private art collection in Chicago.

The Women's and Children's hospital, the Foundlings' home, the Home for Incurables, and the Half-Orphan asylum receive \$50,000 each. The art collection, while added to the Art Institute, is valued at \$300,000.

The will was drawn in 1903. The art collection it disposes of contains some eighty paintings, including besides those at the Art Institute a number of paintings the deceased had at home and a few which hang in his office in the Metropolitan block. The collection contains paintings executed by many of the greatest artists in the world, and Mr. Munger spent years of travel in getting it together. It was acquired from France to Russia and from Italy to the Scandinavian countries for treasures of art worth to increase the size and quality of the collection.

Some of the most notable works in the collection are "The Bathers," by Eugene Delacroix; "Fleeing from the Flames," by Bohrer; "The Vedette," by Meissonier; "Castle at Rest," by Bonheur; "Just Before Sunrise," by Corot; "The Wrestler's Challenge," by Munkacsy; and other rare gems. The other paintings represented are by Michelangelo, Titian, Vermeer, Rembrandt, Goya, and others. The collection also includes a number of tapestries, including the famous "The Fall of Man," by the Flemish school.

One picture, "The Vedette," by Meissonier, cost \$30,000. "The Bathers" cost \$25,000, and "The Place in Danger" cost \$22,000.

## DIES VICTIM OF A FANCY.

Woman Who Dreaded the Night Found Lifeless in Her Room at St. Louis.

The life of Mrs. Elizabeth S. Henning, 69 years old, of St. Louis, was wrecked and finally brought to an untimely end by her strange dread of the night.

During the morning Mrs. Henning was usually cheerful, but shortly after noon she would remark that it would soon be dark, and as the day wore on she grew nervous, and at times hysterical. As soon as the darkness deepened she had the gas lighted and at night she kept a light burning in her room. It had been suggested that she could pull down the curtains and light the gas and it would be light within the room, but her reply was that she knew the darkness was outside.

This became more than the woman could bear. She said often she could not stand it much longer, that the night was driving her mad, but little attention was paid to her fancies.

The other morning the woman did not appear at the usual hour and her door was forced open. She was found dead on the floor. There were no marks of violence on her person nor traces of poison about the face, but the physician who was called in said he believed she had either taken poison or had smothered herself on the bed and in her death struggles had fallen to the floor.

## GOLD NUGGET IN GOOSE'S SCROP.

Butcher Who Invested in Land on the Strength of This Lost Money.

Eager to amass a fortune has brought R. Roberts, a butcher, of Ottawa, Kan., to grief. In Gloucester township, a few miles from that city, is a water-course known as Green's creek. A farmer who possessed water found the creek particularly useful. He brought his geese to market and disposed of them to Mr. Roberts.

In the process of dressing a goose a member of Mr. Roberts' family found in the crop what proved to be a nugget of gold. Mr. Roberts at once had a claim made that Green's creek must be a Klondike, and the chance of his lifetime to become wealthy had presented itself. He hastily struck a bargain for the purchase of the farm, paying an exorbitant price for it.

The stream was closely searched for evidence of nuggets other than the one the goose had swallowed, but not even mining experts could find more of the yellow metal. The butcher has now abandoned the search a hopeless, wiser, if not a richer, man.

## Tomb Covering Nine Acres.

The most magnificent tomb in the world is deemed to be the palace temple of Karnak, occupying an area of nine acres, or twice that of St. Peter's at Rome. The temple space is a poet's dream of gigantic columns, beautiful arches and wondrous avenues of sphinxes.

## Hair Dye and Insurance.

Hair dye is considered so detrimental to long life that a continental insurance company refuses to insure lives of persons using it.

## Working Woman's Home Association.

21 S. Peoria St., Chicago, Ill. Jan. 11, 1933.

Our Working Woman's Home Association used Foley's Honey and Turpentine Syrup, and are using it today. It has always been a favorite, for while its taste is not at all unpleasant its effects are very beneficial. It has never yet disappointed us. We wish you all possible success, sincerely yours, LAURA G. FIKON, Mgr. H. W. Bell, N. L. Kroese, W. H. Hubbard.

## CHANGES UNITED STATES MAP

Secretary of Interior Will Issue New Charts Showing Proper Disposition of Louisiana Cession.

Certain official maps of the government are, by the authority of the government, declared to be incorrect, and as now printed perpetuate a mistake which is being taught in many of the schools of this country. The map in question is declared faulty in that it shows the Louisiana cession to extend beyond the Rocky mountains and to include what are now known as Washington, Oregon and parts of Montana, Idaho and Wyoming. The commissioner of the general land office,linger Herrman, after an exhaustive examination of authorities, has recommended the new maps make the Louisiana cession end at the Rocky mountains, and his suggestion has been adopted by the secretary of the interior, Mr. B. H. Ladd.

The commissioner has published an official report upon the subject, containing maps and illustrations. The country beyond the Rockies will on the new maps be shown to have been acquired by discovery in 1792, by exploration in 1805, by the Astoria settlement in 1811, and by the Florida treaty in 1819. Authorities are cited to uphold this view, and the erroneous statements are given upon which popular misconception is based. The facts of history as given by Jefferson, Marbois, Greenow and others are quoted in opposition to the present idea. A review of annexations by the United States is included in the report, and the benefits arising from such acquisitions are pointed out.

The report says: "The grand total of the sums paid for our foreign acquisitions amounts to \$52,200,000, a sum less than the value of one year's output of Montana's minerals, of Minnesota's annual wheat yield, or of the cattle and hay product of California for one year."

A new map of Alaska, showing reported gold discoveries and other mineral deposits, land offices, new routes to the interior, etc., is also incorporated.

## TOBACCO IN CANADA.

Growing the "Weed" Is Becoming a Great Factor in That Country.

The fact that Canada this year is growing almost enough tobacco to supply its own needs and that Canadian manufacturers, Montrealers among the number, are using the home-grown product in large quantities, will come as a great surprise to many. In the year 1895 there was grown in Canada not more than 4,000,000 pounds of tobacco, over 90 per cent. of which was grown in Quebec province. In the following years the product was about the same, Quebec growing less and Ontario considerably more than formerly, says the New York Post.

This year a careful estimate leads to the conclusion that, if no accident overtakes the crop, not less than 10,000,000 pounds of the weed will be grown in these two provinces, about four-fifths of which will come from the two most southerly counties of Ontario, Essex and Kent. In Essex county alone fully 6,000 acres are this year under tobacco cultivation. This impetus in the growth of tobacco has been caused by the readjustment of the duties by the Laurier government, the duties now standing: Canadian, 5 cents; American, 35 cents. The total manufacture of tobacco in Canada, exclusive of cigars and cigarettes, consumes about 14,000,000 pounds of raw leaf, and to supply this demand about 12,000,000 pounds of American tobacco has been imported annually. If the estimate of 10,000,000 pounds for this year's Canadian crop proves correct it will be seen that there will not be much required from across the line.

## BABY WEIGHS BUT ONE POUND.

Annette Passeeck Is the Smallest Infant Ever Born in New York City.

When the Passeecks received an expected addition to family at the home, 315 East Seventy-fourth street, New York city, recently a "doll" baby came to them. Little Annette is the smallest child ever born in Gotham. When eight days old, though born of parents who together weigh nearly 400 pounds, Annette tipped the scales at just one pound, one and one-half ounces.

The neighbors daily flock to see the little one. Notwithstanding her diminutive size she is perfectly formed, and with proper care and nourishment there is no doubt she will flourish and grow up to be a good-sized woman. This at least is the opinion of the doctors of the Northeastern dispensary, in East Forty-ninth street, who were called in to attend the mother since the birth of the "tiny doll," for that is what her little brothers call Annette.

The couple have three other children, of whom the smallest, a girl, weighed 14 pounds at her birth, and the heaviest, a son, 16 at his birth. The father is six feet two inches in height, and his normal weight is 190 pounds. His mother is above the average in height and weight, and has a number of children. As far back as they can remember their ancestors have been large.

## Age of Gilded Sparrows.

In Brookline, near Boston, a lot of painted sparrows were sold at \$25 each as canary birds. The golden age of birds is past in the east, but the age of gilded sparrows has just begun.

## Some Matrimonial Facts.

Widowers are more inclined to marry than bachelors. Widows are more inclined to marry than spinsters. Both facts are eloquent in favor of the comparative advantages of matrimony. For one bachelor that marries between the ages of 50 and 55, seven widowers marry between these ages. These are marriages out of equal numbers of each class; the actual number of bachelors married will be greater only in proportion as they exceed by seven to one the actual number of widowers living at these ages. Under the same conditions, for every spinster married between 30 and 65, two widows are remarried. Inasmuch as the total number of spinsters far exceeds that of widows, and the figures given refer to marriages out of equal numbers, this disparity is not so noticeable; its existence, however, is beyond dispute. Similarly, out of an equal number of widowers and bachelors between 25 and 30 years of age, 30 widowers remarry for every 13 bachelors who enter the bonds of Hymen for the first time.—Tit-Bits.

## The Moon a Favorite Subject.

Perhaps no celestial body has been photographed so many times as the moon. At Lick observatory the "man in the moon" sits for his picture many times during the year. Jupiter and Saturn are also frequent subjects, and no day passes in which some spot does not leave its celestial autograph on the sensitive plate. Many astronomical discoveries have been made through photography, the greatest of them being the discovery by Prof. Draper, of oxygen in the sun. The applications of photography are so many and so varied that a whole volume of the St. Nicholas would be required to describe them; for there is no department of knowledge in which it has been so extensively used, and none to which it has been so universally helpful.—St. Nicholas.

## How Serpents Sleep.

One of the most curious facts with regard to snakes is that their eyes are never closed. Sleeping or waking, alive or dead, they are always wide open. This is because there are no eyelids. The eye is protected only by a strong scale, which forms a part of the epidermal envelope, and is cast off in a piece with that every time the reptile moults. This eye-plate is as clear and transparent as glass, and allows the most perfect vision, while at the same time it is so hard and tough as to perfectly protect the delicate organ within from the thorns and twigs among which, in flight from enemies or in pursuit of prey, the reptile so often hurriedly glides, as any close observer of the habits of the snake can readily discover.—N. Y. Saturday Evening Post.

## Ventilating Bees.

In tropical countries there are what can only be described as ventilating bees. During the hot season two or three bees post themselves on their heads at the entrance of the hive and fan the interior with the incessant motion of their wings. They are relieved at intervals by fresh bees who carry on the process. They are kept to their duty by a sort of patrol of bees. This is a well-authenticated fact.—Detroit Free Press.

## Willow Tree's Great Growth.

Forty-seven years ago Mr. A. H. Sawyer, of Lexington, Me., placed a young willow limb about a foot in length in the ground near his house. It took root, and is now 11-1/2 feet in circumference, one is 4-7/8, one 3-7/8, one 3-2/8, and one 4-1/8 in circumference. The branches spread 62 feet. It is estimated to make from three to four cords of wood.—Chicago Tribune.

## Just Like a Man.

"Oh, just because, I—er—dreamed of you last night."

"Did you, really? As I remarked before, I believe in them but I don't believe they have any significance whatever."—Chicago Evening News.

## Domestic Science.

"What do you understand by the department of domestic science?" "It's where they teach women how to keep their husbands away from the clubs."

Of course the answer was wrong but they all felt that she ought to go to the head of the class just the same.—Chicago Post.

## Mormons in Mexico.

The laws of Mexico provide that a Mormon who wishes to take a second wife must present a certificate, signed by his first help-met, to the effect that she is willing, and he must also have the express consent of the second wife and her parents.—Cincinnati Enquirer.

## CUTTING OUT SWISS.

Their Watch Trade with Japan Fast Yielding to the Advance of the American Product.

There is a good deal in Consul Adolph L. Frankenthal's report from Bern concerning the Swiss and American watch trade rivalry in Japan to encourage American manufacturers. His letter incloses the translation of the Swiss consul-general's report to his government, in which important admissions are made. In 1896 Switzerland's export was equal to that of the United States, but in 1907 the latter gained. Mr. Frankenthal says that the reason was either that there was greater push on the part of the Americans or there was a considerable reduction in the prices. The reason is not clear either way, as showing American ability in a field in which a few years ago the Swiss enjoyed preeminence over other nations.

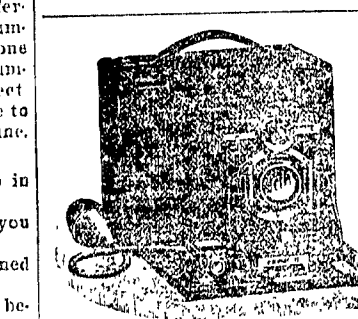

Mr. Frankenthal admits, however, that while the United States takes the lead in the export of parts of watches and other materials, Switzerland is far ahead in the export of complete watches.

The Swiss consul-general, Ritter, notes that the two Japanese factories, one at Osaka, which imports movements and rough cases from the United States, and another at Tokio, which is superintended by Japanese who learned their trade in Switzerland and propose to import parts of watches, are not likely to give competition.

A woman does not have to be placed under an X-ray to show to all beholders that she is suffering from ill health. Ill health marks a woman much more quickly than it does a man. It deepens the sparkle in her eye, the bloom of health on her cheek, her vivacity of movement, her sociableness of carriage and nervous, petulant and despondent. Generally ill health in a woman is due to disorders or derangements of the delicate and important feminine organs which are the cradle of the race. No woman who suffers in this way can retain her good looks or her attractiveness. The day burden of torturing, changing pains that she carries, will soon make her a physical wreck, and eventually either kill her or drive her to insanity. Any woman may restore and retain her health and strength in a womanly way by the use of Dr. Pierce's Favorite Prescription. It cures absolutely and completely the weaknesses and diseases peculiar to her sex. It does away with the necessity for the obnoxious "examinations" and "local treatments" insisted upon by nearly all physicians, and enables her to treat her ailment in the privacy of her home. It is the invention of Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Any woman may consult him by letter free of charge. All correspondence carefully confidential.

"I was sick for sixteen years with prostrations, weakness, disagreeable humors, pain in the spine of my back and convulsions, such as Mrs. William of Haverhill, Mass., writes: 'When I began taking Dr. Pierce's Favorite Prescription I could not get on after taking it for one week I had more rest and I was able to do my work. I have taken four bottles of the Favorite Prescription, one bottle of the Golden Rule of Digestion, and three bottles of the Pleasant Pellets. These medicines have cured me. I feel as well as I ever did. Several of my dear friends, who had tried many other remedies, have been cured by the same medicines, and I feel that I have found the right treatment for my ailment.'"

This is the \$20.00 Camera we propose to give away as our grand prize in the coming contest, Nov. 17. While preparing for this contest amateurs can have free use of dark room and first class burnisher. All amateurs are solicited to call and get full particulars.
